

## Current Job Postings

If you are in search of a demanding and creative occupation and want to work with a young and dynamic team, we invite you to browse through our current job openings.

### We're looking for:

[Back-end developer \(m/f\)](#)  
[Office Manager \(m/f\)](#)  
[Intern Project Maintenance \(m/f\)](#)

Job Offerings:

#### Back-end developer

Job applicants should have expert knowledge of server-side script and programming languages in connection with LAMP installations. Also you have fundamental knowledge and at least two years of professional expertise in the areas of object-orientated programming languages such as Java and C++.

You should enjoy working independently, thinking ahead and being part of a young, dynamic team. The main focus of your everyday work will be the creation of complex web applications in cooperation with our visual and front-end developers and the maintenance and extension of existing projects.

#### Office Manager

The focus of your work will be the coordination and organization of our daily Hamburg office activities. You are the central gateway for incoming and outgoing information. To perform these duties as effectively as possible, we require all job applicants to be fluent in English and strongly recommend extensive experience in Office applications. A high level of organizational talent will be of great benefit.

#### Intern Project Maintenance

As intern in project management, we will offer you the opportunity to experience the daily work on high-maintenance web projects and expect from you a high level of commitment in assisting us with content management tasks. Do you enjoy using the Internet and are a university student in the field of communication, media or conception willing to spend 3-5 months with?

If we could convince you, please feel free to send your application in to [jobs@gw-interactive.com](mailto:jobs@gw-interactive.com) (PDF, max. 3 MB) or via mail to:
